22 April 1971

MEMORANDUM FOR: Director, ORD

SUBJECT : TSD/ORD Planning

Bob,

1. I thought it would be useful to put down a few notes on our recent get-together. Both [] and I found it very useful and hope that you and Steve were equally satisfied.

25X1

2. Specific items which I think warrant mention were.

A. The first confirms that I had agreed to forward to you a copy of our TSD/D&E goals as set forth in our current R&D Seminar material for the '72 through '77 time frame. For your advance perusal, I am attaching a copy herewith. The main textual material is our Program.

We discussed also that after you and your people have had a chance to digest this, that we would be pleased to get together along with your other "customers" and try to help you sort out the various priorities attached to the very diverse set of requirements applicable to ORD.

B. Unless you wish otherwise, I will ask [] to pursue further with Steve some of the additional "technical details" which we did not have time to cover at our recent meeting. In particular, I continue to believe it would be useful if we can look to the 1967 agreement as still the most viable approach to our day-to-day coordination problem.
